

Multifile Fire Rated Filing Cabinets

Multifile offer a range of 1 and 2 Hour Fire Rated Filing Cabinets, and are available in 2, 3 or 4 Drawer versions with Key and/or Digital Locks. Our cabinets have been designed and tested to provide the highest levels of protection for documents in the event of Fire.

Ideal for storage of:

Last Will and Testaments, Title Deeds, Passports and other important paper documents.

The GDF Range of Fire Rated Filing Cabinets is a premium certified 1 hour fire resistant filing cabinet. Featuring a digitally operated top locking drawer and individually keyed drawers, the layout allows the operator to configure the drawer locking configuration as required.

Inside: H254 x W384 x D505 mm
Capacity: 49ℓ

Also available with 2 hour Fire Protection

NT FIRE 017 Fire Test

Independently tested to the most stringent international standards, The NT Fire 017 fire test originates from NordTest the Swedish National Testing and Research Institute. This test is considered an industry standard. The SP testing lab in Sweden is perhaps the most highly regarded lab which performs this test.

NT FIRE 017-60 Paper: The safe is heated in a furnace for 1 hour to 945° C. During this time, the internal temperature of the safe may not rise by more than 150° C. Safes in this category provide one hour of protection for paper by keeping temperatures below 177° C, the point at which paper chars or combusts.
